Profile

My Name is Yasser dhia , i have master degree of computer science / Artificial intelligence.

I have over 140 certificates of appreciation from the Udemy International website for educational programming courses

I have more than 20 software projects for different types of programming . See the following link:
<https://github.com/yasserdhia>

Experience

- Modification of more than 2000 names | JJJJPresent**

I modified more than 2000 names that had been made with the wrong entry, so I made the amendment and made a software equation in Excel and the amendment with the click of a button.
- Iraq Bank link**

Archiving data and books programmatically | JJJJPresent

I worked on the archiving system and I entered more than 4000 books in a few minutes by using the sql management server and entering data programmatically into the special system. Without the need for manual entry, which may require a long time of up to more than 3 months to manually enter data.
- SawadLand**

Build Movie Application | JJJJ - Present

build movie application content video streaming and channel live for more platforms such smart tv , mobile , website.

Education

- Master Degree of computer science**

University of tecnology , baghdad | JJJJ - Present

i have master degree of computer scinece .
